## X-Guard® 50X20 Panels

X-Guard is a complete range of machine guard that complies with the Machinery Directives, 2006/42/EC, new demands on permanent guards from 29 December, 2009. With its wide range of standard components and accessories, X-Guard is guaranteed to cover all possible machine guard applications. X-Guard was launched in 2008, since then new panel sizes have been added. We listen to our customers to enable us to develop the range as new needs arise.

The panels are available in one height 2200 mm and in six different widths. The standard colour is RAL 9011 but the panels can also be tailored to specific customer requirements.

### 50X20 Panels
