

Axelent Store

Secure, smart mesh panels for industry and warehouse

We always put your environment first

At Axelent we prioritise your needs and wants. We know from experience that every project is unique in its conditions, requirements and preferences. Our offer to you is therefore slightly different to the traditional because it is built around different parts. The mesh panel with accessories is naturally the core to our offer, but it is our added value that makes us unique. It goes by the name of All inclusive by Axelent. Be our guest...

All inclusive by Axelent

A project manager who is with you all the way.

X-Pack™ a unique packaging system designed to minimize damage and make delivery and assembly as smooth as possible.

Speedy offer and drawings.

We provide assemblers with special expertise to customers who would rather not do the assembly themselves.

Speedy deliveries. All products are stocked in Sweden ready for dispatch.

A top quality range of products and accessories.

A standard range that is easy to supplement.

Easily assembled products with clear instructions.

SnapperWorks. Tailored and easy-to-use drawing application available to all our customers.

We believe in Made in Sweden

You will find us in Hillerstorp. This is where all product development, production and packaging of our mesh panels takes place. We have become a complete company group in the field of machine safety and smart solutions for secure and effective industry, warehousing and storage. Our stringent demands on safety, speed and smart solutions have made us a market leader within these segments. Today we are represented in over 50 countries over the world.

Efficient production

Our production is highly automated to manage large volumes and speedy deliveries. All our standard products are in stock in Sweden, we can ship your order the same day as we get it.

A safe choice

Axelent has a wealth of knowledge about safety in industry, storage and construction. We always comply with the norms and regulations on each market and strive to develop safety solutions in the fields in which we operate. Please consult us for the ultimate safe and secure environment.

Collaboration

To guarantee the most complete solution as possible, we collaborate with several leading suppliers of machinery, robots, automated systems and storage equipment.

Sendzimir

Axelent X-pack

Axelent's own packaging system, X-pack, plastic-wraps your products neat and tidy on special pallets along with the assembly instructions. This makes the products simple to unload and facilitates fast assembly. We can help you with assembly if you so wish.

Axelent SnapperWorks

Our drawing application SnapperWorks enables us to make you an offer, including drawings and material specifications quickly and easily.

SafeStore

ANTI-COLLAPSE PROTECTION SYSTEM

Axelent SafeStore is the ultimate solution for a safe, secure and smooth warehouse operation. Fix SafeStore to the rear of pallet racking and you have the perfect guard to prevent objects from falling down and causing injury or damage. Today SafeStore is used in all types of warehouses, from small manually operated to large automated crane storage.

The Axelent SafeStore anti-collapse protection system can be supplied with special brackets in customer-specific colours to match the rest of the customer's facility.

Axelent SafeStore with 50x60 mesh spacing. Project delivered to Scania in Oskarshamn.

SafeStore

Anti-collapse protection system

Suits all modern racking systems

Our production is highly automated to manage large volumes and speedy deliveries. All products are stocked in Sweden ready for dispatch.

Easy to cut for the perfect fit

Two different mesh apertures enables you to combine safety and economy. You can also cut the panels for optimal fit. Everything is delivered plastic-wrapped on our special pallets straight from Hillerstorp.

PRODUCT FACTS

Uprights	15 x 15 mm
Horizontals	19 x 19 mm
Vertical wires	Ø 2.5 mm
Horizontal wires	Ø 3 mm
Mesh aperture	50 x 30 mm, 50 x 60 mm
Brackets	Made from 3 mm sheet metal. With elongated holes to allow vertical adjustment.
Finish	Phosphatizing/Epoxy paint
Colour mesh panel	Light grey RAL 9018 Black RAL 9011 (only 30 x 50 mm)
Colour bracket	Light grey RAL 9018 Silver RAL 9006 Sendzimir galvanized (other colours can be quoted)

① Axelent's anti-collapse is easy to assemble. The mesh panels are bolted together vertically. Joining clamps are used at the top edge of the top row and the bottom edge of the bottom row.

② Upright extensions are available as an accessory. This makes it possible to install mesh panels up to 1500mm above the standard upright.

③ The brackets are available in nine different increments, from 0- 300 mm, painted or galvanized.

X-Store

INDUSTRY AND WAREHOUSE SYSTEM

Mesh shelving

Axelent's mesh shelving is practical, stable and is suitable for non-palletised small items as well as for pallet storage. Mesh shelving does not gather dust and lets light and water seep through, usually a requirement

when a sprinkler system is installed.

All parts of our shelving system are designed to make handling as safe and smooth as possible.

Partition or enclose. Create new, change or extend. Needs differ from one industry or warehouse to another. Just like our other products, we have developed X-Store based on the criteria that it should be easy to assemble and supplement, and function in most types of environment. If you choose Axelent X-Store you can feel rest assured because this warehouse and industry system has numerous combinations and applications. You also get a flexible, safe and economic system into the bargain.

X-Store

Industry and storage walls

Easily adaptable

The X-Store sections are available in two heights and several widths. Using feet, posts and extensions you can tailor the panels to suit your needs. We offer a cutting service to ensure your panels are perfectly dimensioned, horizontally and vertically.

Combine with a door package

It is also possible to combine X-Store with one of our door packages. If you want a special colour to fit in with the rest of your decor we can naturally fix that as well. Everything is delivered plastic-wrapped on our customised pallets straight from Hillerstorp.
