AXELENT X-IT

Axelent X-It is a keyed cylinder lock designed primarily for modular mesh panel systems for machine guarding, industrial/warehouse and storage walls. Thanks to the unique construction and it's simple assembly, the lock can also be used for similar third party products/systems available on the market. The lock is a unique design that requires no additional lock housing, just add a standard cylinder such as Euro. The lock is robust with a cover in metal to withstand tough conditions, and is tested and approved according to SS-EN 12209:2016. Can be provided with an evacuation facility if required. The lock can also be combined with a mechanical panic / emergency unit. The product is patent pending.
X-It

- Robust construction
- Unique locking function
- Convenient
- Flexible
- Ordered in right or left execution
- Simple assembly
- Tested and approved according to SS-EN 12209:2016
